Soft Skills

- Communication
- Collaboration
- Problem-Solving
- Adaptability & Flexibility

Experience

Projects

Evangadi Tech Forum

Evangadi Tech Forum is a collaborative Q&A platform powered by Node.js, React, and MySQL. It prioritizes seamless discussions and effortless knowledge sharing.

Highlights:

- Secure Access: Protected login using MySQL-based role assignments.
- Interactive Discussions: Markdown-enabled Q&A platform for seamless knowledge sharing.
- Robust Backend: Collaborative handling of data using Node.js and MySQL.
- Sleek UI: Modern interface crafted with React and Tailwind CSS.
- Responsive Content: Dynamic content delivery without real-time updates.

Outcome: Evangadi Tech Forum provides a simple, dependable, and user-centric platform, fostering effortless collaboration and knowledge sharing for tech enthusiasts.

Amazon Clone

Technologies Used:

- React & Node.js:** Powering our Amazon-inspired ecommerce site.
- Firebase:** Handling user authentication and database operations seamlessly.
- Stripe:** Ensuring secure payment processing.

Highlights:

- React Frontend:** Creating a contemporary, adaptable UI.
- Node.js Backend:** Engineered for top-notch performance.
- Firebase:** Seamlessly managing authentication and database functions.
- Stripe:** Ensuring secure payment handling.

Outcome: Delivering an authentic Amazon-like experience—professional, secure, and user-centric.

Netflix Clone

- Seamlessly integrated APIs with a movie database for the Netflix clone.
- Actively utilized diverse sources and documentation, enhancing learning through practical application.

Apple Clone

Successfully recreated the Apple website's user interface using React components for an accurate replica.
